

CV-s Sub-session (Conviner Dr.Irina Voloshina, Moscow, State university, Russia)

e-mail: voloshina.ira@gmail.com for copy of abstract and other communications

1. *Professor Qian Shenbang (Yunnan National Astronomical Observatory, Chinese Academy of Science, China) - invited speaker confirmed.*
"Magnetic CV as a bright representatives of close binaries"

2. *Professor Anupama G.C. (Indian Institute of Astrophysics, Bangalore, India)*
"Recurrent novae in the multi-wavelength observations era" *invited confirmed*

3. *Professor Dmitry Bisikalo (Institut of Astronomy RAS, Russia)*
"Accretion processes in cataclysmic variables with magnetic field" - *invited confirmed*

4. *Dr. Akira Imada (Okayama Astrophysical Observatory, Japan)*
"Period variations of superhumps in SU UMa stars" - oral *confirmed*

5. *Dr. Michele Montgomery (University of Central Florida, USA)*
"Frequency and RV studies in non-magnetic CV-systems" - oral *confirmed*
